### CRUISERS ON THE WAY.

A telegraphic report received in the Colony states that negotiations for the surrender of Wuchang broke off on the 13th inst., and the bombardment of the city commenced in the early hours of the following morning. It also states that Wu Pei-fu has completed his/ three defence lines-near Hsiao Kan Shun Yang and the Wu Shing Pass, and has informed Sun for support to a claim for a seat. Chuan-fang that a general attack on Hankow and Hanyang will be made from three directions, the centre army to be under Tien Kari Wan-ngo and wing under Ma Chai. Wu Pei-fu has requested Sun Chuan-fang to co-operate in this movement.

On the other hand, reports of the Southern armies state that the disposition of the Nationalist units is as follows:-The 7th, and 8th. Army Corps after capturing Hsiao Kan to take possession of the Hankow-Peking Railway and to get in touch with the forces under Fan Chung-sow, who has captured Cheng Chow and is stationed in a position to intercept the Northern Amies in the event a retreat from the Wu Shing Pass; the 4th. Army Corps to occupy positions at Wong "Kong Chi Sui, Kwing Chai and Wong Moy on the Hupeh-Anhui frontier to prevent asistance from the latter province coming to Kiangsi the 9th and 10th Army Corps to be stationed at King Chow and Shasi. Fan Chung Sow's forces are assigned to the defence of the northern frontier of Hupeh. The Division under Hsia Tow-yan i detailed to restore water com munication on the upper reach of the Yangtszo River. It is further reported that owing to the rapid advance of the Southern forces on Nanchang, Tang Yu-terk is retiring and concentrating his forces . in the vicinity of that city.

### NAVAL INTERVENTION.

Although Hankow was reported the harbour nevertheless underwent an exciting time while the fighting was in progress, and British naval intervention had to be exercised on a number of occasions to prevent British ships or other of the several recruiting from being damaged. The most conspicuous case of this kind was that of the China Navigation str. Woosung, which was used by "Allied" gunboats as a shield from behind which to bombard the Cantonese troops at Nanyang.

#### GUNBOATS TAKE COVER.

The Woosung -was lying anchor on Monday afternoon (Sept. 6th) when an "Allied" gunboat took up a position slightly ahead of her. She then loosed off Meanwhile, the suppression of a salvo at Hanyang and promptly "anti-Red" literature and the backed to cover behind the Wooliterature and the intensive hand- sung. Hanyang replied, several well ling of propaganda by the Kuo- | placed shells falling on the exact mintang, together with the send- spot from where the gunboat had fired. The gunboat repeated this manœuvre several times, and then steamed away, to be replaced by a second "Allied" gunboat. This latter craft steamed in to within less than 12 feet of the Woosung, and from this position continued the bombardment of Hanyang on the same lines as its predecessor, excepting that it was far closer to the B. & S. boat than was the first. Requested to go away, the commander of the gunboat took no notice and carried on firing.

### BRITISH NAVAL ORDER.

Meanwhile the attention of British naval vessels in port had been attracted, and a tugboat flying the White Ensign and carrying sailors and marines steamed to the spot at full speed. "She ordered the gunboat to move further out, and thus lessen the danger of the Woosung being hit. This order being ignored also, the tug promptly drew alongside the gunboat—a comparatively small ship—with the obvious intention of pushing her out by main force. The Chinese commander, deeming discretion the better part of valour, took the hint and moved away, though st using the Woosung as a screen.

It should be borne in mind that the Woosung was in full view of the Cantonese troops at Hanyang, and though it is possible that the first shell was an acci dent, it is extremely unlikely that the second shell was also an accident, and the officers of the vessel are convinced that it was fired deliberately at her.

Previous to this, whilst the vessel was going into Hankow, Cantonese troops deliberately fired on her with rifles, several bullets striking the ship, though fortunately nobody was injured.

### THE MEDICAL CONFERENCE.

HONGKONG DELEGATES BACK FROM PEKING.

As has been reported, two delegates left Hongkong to attend the biennial conference of the China Medical Association at Peking. Professor Anderson represented the B.M.A., and Dr. Arthur Woo the Chinese doctors of Hongkong.

They were joined in Peking by Prof. H. G. Earle, of Hongkong University, who had just returned from home via Siberia, and who attended the conference on behalf of the University.

All three are now back in Hongkong, and report that this, the eighteenth biennial conference of the China Medical Association, has proved one of the most successful in the annals of the Association. At this period of the year the climate of Peking is ideal, while the palaces and antiquities of the old city form a never-failing source of romantic interest.

The first general meeting of the conference was held in the Auditorium of the Peking Union Medical College on Wednesday, 1st 5.20 Sept. and was attended by a large gathering of delegates and mem-\$61.00 bers, numbering altogether about two hundred. Owing to sudden \$ 2.75 illness, the President and "Vicepresident were both absent, and \$32.00 | the Past-president, Dr. John Kirk, was chosen as Chairman. President's address, which was read by the "Chairman, laid emphasis on the changed type of physician produced by the rapid development of the science of medicine and reminded the modern doctor that kindly advice and sympathy were often of as much value to the patient as highly technical

> Following the address, greetings were presented by the dele-gates from other medical and scientific bodies. Dr. Chas, H. Frazier brought good wishes from the American Medical Association and the University of Pennsylvania, Dr. Georgina Sweet brought greetings from the medical profession in Australia, Surgeon General S. H. Chuan expressed the good wishes of the National Medical Association of China, Dr. Y. S. Howe spoke on behalf of the National Medical and Pharmaceutical Association, Dr. Arthur Woo for the Chinese Practitioners' Association of Hongkong, Dr. J. H. Gray for the Y. M. C. A. of China, and Miss Hope Bell for the Nurses' Association of Ohina.

Canton Government is reported to jure their interests. have made to a news agency representative, the Canton administration is desirous of maintaining friendly relations with foreign nations and is not animated with Britain. That is an important pronouncement, if it really repreleaders towards Britain, and it would be so much to the good : fessed friendship were forthcoming. Unhappily, there have been no gestures recently made which would support the statement quot-'ed, but there has been ample eviactive in seeking to intensify and extend the boycott movement cott leaders, the Canton Governand it would be a wise step on its it clear that it in no sense lends ! its support to a campaign which' direct contravention point would do much to clear the

Southern armies, and it is common knowledge that Kuomintang propaganda is mainly anti-British in character. It is to be presumed that the Canton authorities have full knowledge of the propaganda work which is being carried on side by side with the military operations, and it would be an easy matter to keep this within limits. After all, troops do not usually go in for placard-posting, and it is a natural presumption that thi work is being carried out on express instructions. As to the point that the boycott movement is essentially a labourers' movement, the 24th instant. that myth has long been exploded. It is the work of professional agitators, and, as has again and again been stated, it has been maintained by force on a people, who would welcome the resumption of normal business relations

One thought worthy of being put forward is that if the boycott movement should be extended to Central China, the Canton authorities will find it extremely difficult tended the evil becomes, the more likelihood will there be of strong action by those who suffer from ts effects. For the movement strikes at the very roots of foreign trading rights, and it is conceivible that the more widespread becomes, the greater notice are the Powers likely to take of it. Canton would therefore do well, first to dissociate itself from the. boycott, and, secondly, to see that under the cloak of its military operations the movement is not extended. In the long run, it will pay Canton to cultivate the friend-According to a statement which ship of the Powers rather than to member of the Committee of the link itself with schemes which in-

Electricity has been available only to a limited extent, and even that in the centre of the town only. Most of the bungalows have had to put up with gas-not a satisfacory illuminant in the tropics, for it means that one cannot have fans while within quite short distances of the heart of the city even gas is not available and the unfortunate inhabitants have had to be as content as possible with oil lamps.

It was a position which reflect-"ed no credit on the predecessors of the present city fathers, who allowed themselves to be tied up with an expensive gas undertaking which has made the change over to electric light a slow" and costly business.

The war also put a stop to much work which otherwise would have been done years ago, and when peace came Singapore was in very truth a city of arrears. These are now being made up as quickly as may be. The new electricity undertaking costs \$3,500,000, and ensures the town an adequate supply for years to come. There is no comparison between them and the old type of noisy rattling tram which runs on rails. They are handsome in appearance, they run silently, and, what most important, they can manoeuvred like any other vehicle on the road, so that the dislocation caused by the tram in a fixed position on the road is a thing of the past.

Singapore is very pleased with its new vehicles, and they are highly popular with the people who use them. So far there have been no accidents of the kind which fearful folk predicted when the tram driver, who hitherto has been reasonably safe on his rails, had to find a way for himself among the other users of the road.

### CANADIAN ELECTIONS.

DEFEAT OF THE GOVERN:

Early election returns indicate that the Government will not be able to secure a majority in the new Parliament, unless the returns from Western Canada prove a surprise. The contest has been bitter and as a result at least ten slander actions are pending among the political leaders, including an action by Mr. Mackenzie King against a Toronto paper for £50,000 damages. Two actions by Mr. Stevens, Minister of Customs, have been filed against

two newspapers for £20,000 each.
Stormy scenes marked the final meetings of the campaign at Montreal where Mr. Patenaude, Minister of Justice was unable to obtain a hearing. Fierce encounters ensued between his supporters and opponents and eggs, tomatoes and other missiles were thrown.

Election returns shortly before midnight point to the defeat of the Government with the probability that the Liberals will have the largest group in the House of Commons and possibly a clear majority.

The Conservatives hitherto have made three gains, the Liberals eighteen and the Progressives one.

Mr. Meighen himself, and five Cabinet Ministers have been defeated. All the Liberal ex-Ministers have been re-elected. The country is virtually assured of a comparatively stable. Government under Liberal auspices for four years, since Mr. Mackenzie King, with the co-operation of the Progressives, will be able to rely on a majority over any other combination. Moreover, he can probably count on the support of the majority of Alberta Farmers and Labour-

Mr. Meighen's resignation is imminently expected, after which Mr. Mackenzie King will be summoned to form a Cabinet, hence it is doubtful if arrangements can be made in time to enable the Premier to attend the Imperial Conference, unless the latter be again postponed.

C. A. A. DENIAL.

Mr. H. K. Lee, Hon. Secretary of the Chinese Athletic Association, writes us as follows:

I have been directed by my committee to point out to you that the news which appeared in last evening's Telegraph under the heading of "The Football Split" is incorrect and to request you to be good. chough to publish a correction.

To begin with. I have to inform you that there has never been any dispute or controversy between the South China Athletic Association and the Chinese Athletic Association and that Sir Shou Son Chow and the Hon. Dr. R. H. Kotewall did not call a meeting of the representatives of the two bodies, on Tuesday afternoon, nor did the President of the Chinese Athletic Association address a letter to the two gentlemen, as stated in your columns.

The Chinese Athletic Association is an entirely different organisation and has had no connection whatsoever with the South China Athletic Association and there is no truth in the rumours that the Chinese Athletic Association has intention of amalgamating with the South China Athletic Association.

am given to understand that Tuesday's meeting was called by Sir Shou Son chow and the Hon. Dr. Kotewall who are the President and Vice-President of the South China Athletic Association respectively with a view to persunding the football members of their own Association to play under the colours of the South China Athletic Association during the coming season.

If there was any dispute it was entirely a matter between the S.C.A.A. and its football members and has nothing whatever to do with the Chinese Athletic Association.

London; Aug. 27. On the eve of the football season, in an interview, Mr. F. J Wall, the Football Association Secretary, said he confidently anticipated an even more successful season than last year.

The immense vogue of the Association game was gaugeable from the fact that there are upwards of 30,000 affiliated clubs, of which only 400 employ professionals.

"Socger," he added, "is in no danger of being ruined by what its opponents call professionalism. The game has never been so popular as it is to-day.".

Mr. Wall added that he saw no reason why they should not regard Wembley as the new home of the game. He had no reason to doubt that it would continue to be used for soccer for many years.

### POKFULAM ROW.

LLEGED ASSAULT OVER HOUSE BUILDING.

Because a contractor absconded owing large sums of money, leaving a house in the course of construction in an unfinished state, it would appear that sub-contractors, who lost money over it, objected to the work being completed by another contractor, and, to em" phasise their objection, attempted forcibly to stop the work by assaulting coolies working on the house. The matter came up at the Central Magistracy this morning, before , Mr. R. E. Lindsell, when three men were charged with assaulting others in order to try and make them cease from working on the house. A fourth man, who is at present in hospital, was not in Court.

happened on a rural lot at Pokfulam on Tuesday at about 2 p.m. He explained that the house was just below Mr. Wilson's house, and the original contractor absconded lowing money amounting to between \$12,000 and \$18,000. The house had since been sold to a Mr. Cheung, of the Union Trading Company, and he had engaged another to complete the work. Since the work had been re-started; these people who were owed money by the other contractor had been

threatening the workmen with as-

sault if they continued the work.

Inspector Grant said the offence

On the day in question, about twenty men, headed by the first defendant, who was a clansman to one of the previous contractors, went to the house, and started to assault some of the coolies who were working there. An Indian watchman and the police happened to be near the spot at the time; and they stepped in. The men then ran in different directions, but four were arrested. One man hurt his leg in jumping over a bank and had

been sent to hospital. . The three defendants were remanded for a week, and the fourth man will be charged on Saturday if he is out of hospital.

Bail was allowed in the sums of \$500 for the first defendant, and \$250 for the others.

### STREET ROBBERY.

EUROPEANS VICTIMISED IN QUEEN'S ROAD.

Mr. R. R. Cuthbert, of Hoihow, who arrived from England yesterday, and his companion, Mr. P. A Corbett, were selected by a ricksha coolie as likely victims for a pickpocketing attempt last night, but the attempt ended in the arrest of the man, who was charged at the Police Court this morning, before Major C. Willson, with the larceny of \$7.

Inspector Field, in outlining the facts, said that at about 9.30 last night Mr. Cuthbert and Mr. Corbett were walking along Queen's receipts for large sums received Weish Road, and when near Lane, Craw-Native Amateur Golf Champion- ford's the defendant passed them, ship, defeating Kenneth Stoker, of and slipped his hand into Mr. Chester, by one hole in the 36-hole | Cuthbert's waistcoat pocket, after | purchases of rupee amounts, and which he ran down an alley to- the name of the sender appearing self to operate. ### MARINE INVENTION.

DEMONSTRATION AT KOWLOON DOCKS.

A remarkable invention recently perfected in France for the purpose of thoroughly cleansing marine boilers, tubes, and furnaces, was demonstrated yesterday to a gathering of local engineers and representatives of firms at the Hongkong and Whampon Dock, Kowloon, and created a most favourable impression.

Every mariner recognises the big saving in fuel and extra power obtained when these parts are kept thoroughly clean, but owing to the difficulty of the settings of the tubes it has been found that they were only partly cleaned by the old hand method. invention consists of different pieces of apparatus, all small and compact, whereby it is possible, by using each in turn, to clean all tubes with such effect that they actually shine when finished. special chipping hammer is used for cleaning the shell of the boiler and the water space cleaner has an adjustment ranging from 41/2

many reports, but it is said these have been really carried on by Hunanese and Kwangsi troops. The Cantonese, comprising the 10th and the 12th Division of the 4th Army Corps, have not gone beyond Changsha in large bodies, it is said. These two divisions have suffered heavily from cholera. Nearly 4,000 men have died since leaving Canton, less than two months ago, and more than half of the total deaths so far reported have been the result of disease. The headquarters of the 4th Army Corps in Canton is rushing recruits to the "front" to fill up the vacancies.

SWATOW HARBOUR MINED.

We recently announced that the military authorities in Swatow had mined the harbour entrance as a protection against the Northern-warships reported to be in the vicinity. The waters near Masu have been mined, and in this connection the authorities have issued the following regulations governing traffic through the minefield:

"(1) In order to defend the port of Swatow at the present juncture of the campaign against the North, mines are to be laid in the waters at Masu, Swatow. 🐃

(2) During the time the mines are laid all vessels, merchantmen as well as men-of-war, of all nationalities, with the exception of men-of-war from the North may enter and leave as usual.

(3) The time for entering and leaving is fixed between 6 a.m. and 6 p.m. and all incoming men-ofwar are to give notice of their expected arrival at least 24 hours before so that protection may be given and misunderstanding

(3) For their own safety vessels, including men-of-war, should slow down when reaching the waters of Masu.

He suggested that such an accident might well have taken place owing to the carelessness of native boatmen at one of the ports on the river at which foreign vessels were not allowed to anchor, and had to take, on and put off passengers while moving dead slow. Boatmen take absurd risks in these cases, he said. At some of these ports, boatmen would crash their vessels straight into the larger ship in order to avoid being swept away by the current before they could make fast the rope which was slung to them, and often the force of the collison caused a rebound which might fling passengers off the smaller boat, or even result in its capsizing.
